

تمارين المحاضرة الخامسة

تَمَارِينُ الصَّلَاةِ

تقسيم لوحة صالة المحاضرة الخامسة

$$1H = 40 + 30 = 70$$

$$2H = 70 + 30 = 100$$

$$3H = 60 + 34 = 94$$

$$\text{Total (H)} = 70 + 100 + 94 = 264$$

$$1H = (70/264)*470 = 125 - 70 = 55 / 3 = 18$$

$$2H = (100/264)*470 = 178 - 100 = 78 / 3 = 26$$

$$3H = (94/264)*470 = 167 - 94 = 73 / 3 = 24$$

$$1V = 50 + 18 + 30 = 98$$

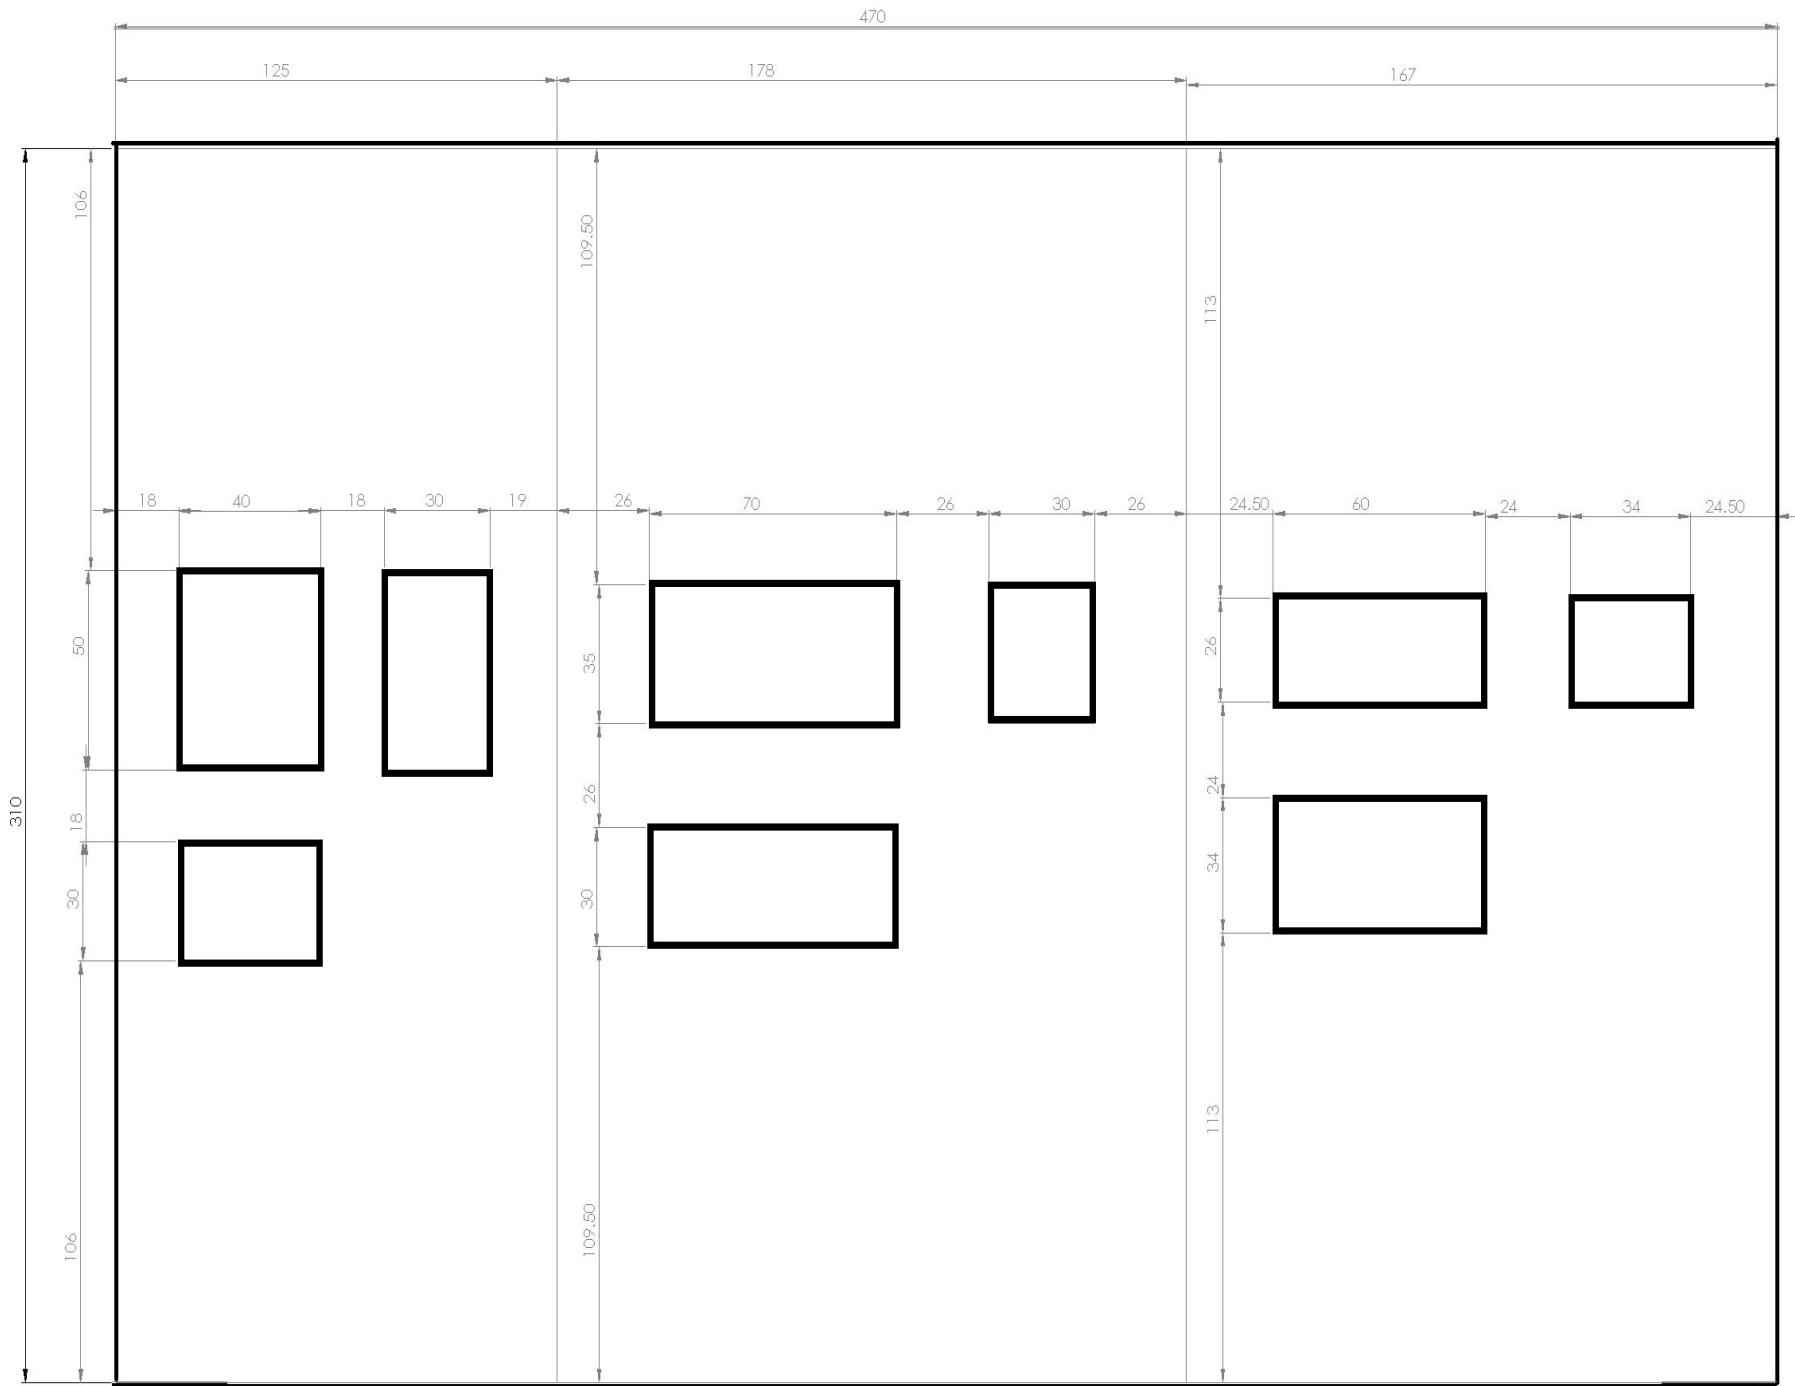

$$310 - 98 = 212 / 2 = 106$$

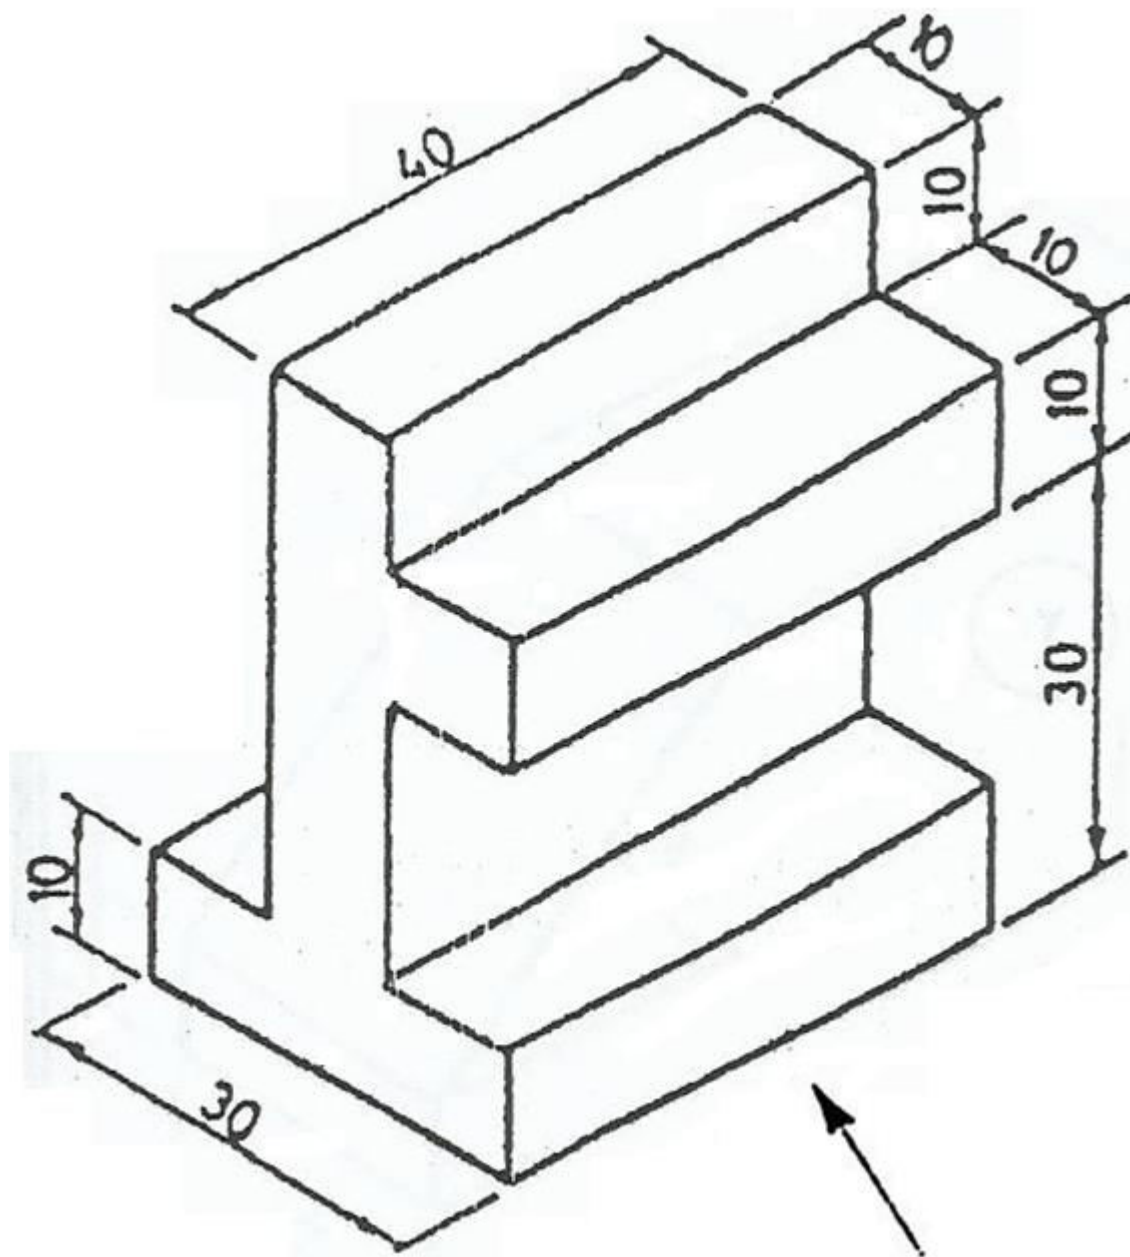

$$2V = 35 + 26 + 30 = 91$$

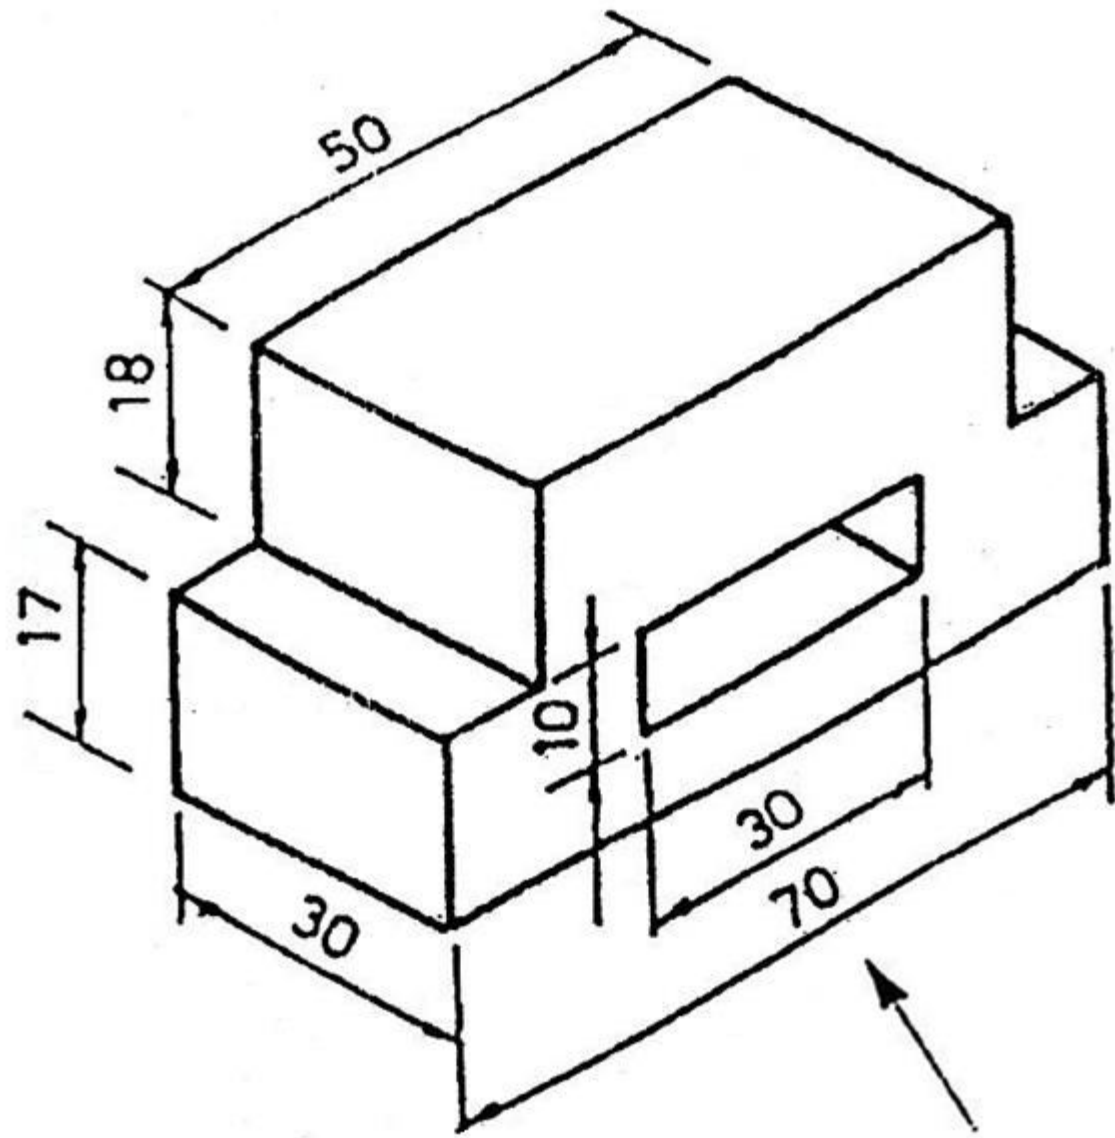

$$310 - 91 = 219 / 2 = 109.5$$

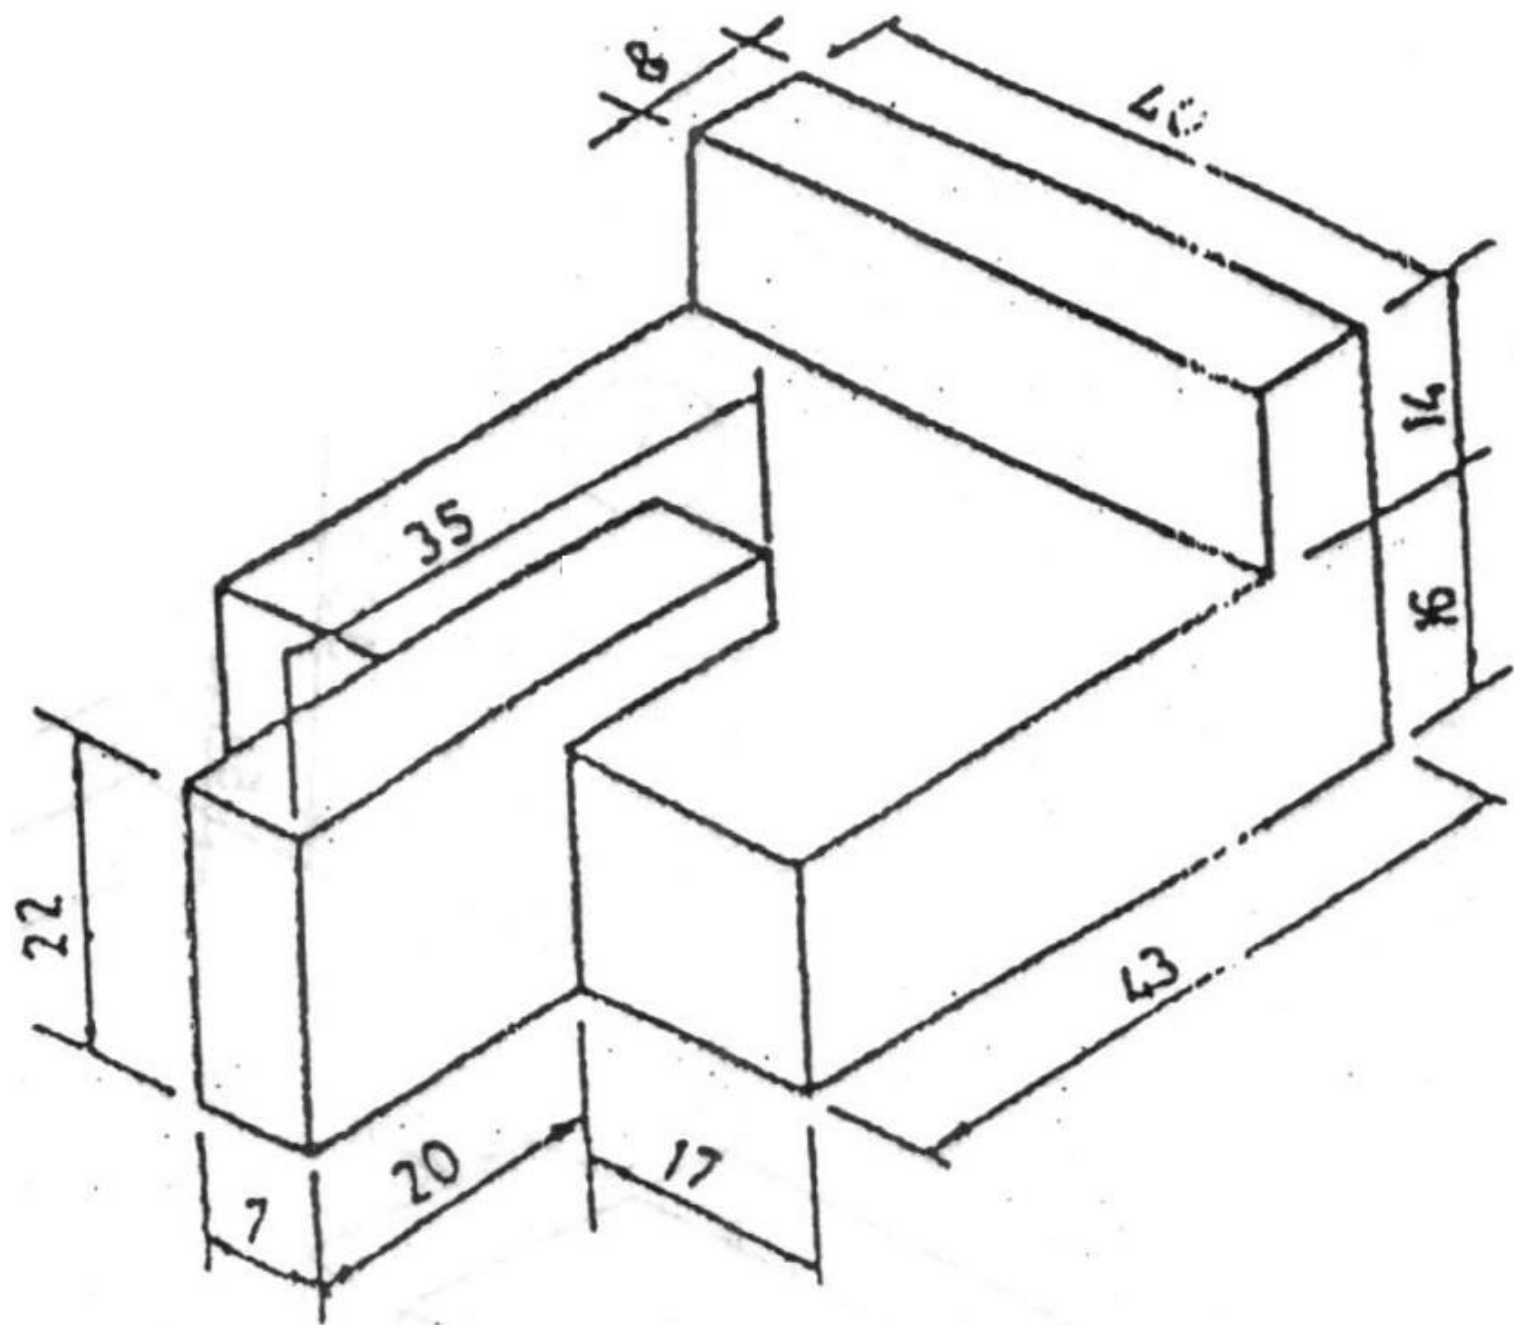

$$3V = 26 + 24 + 34 = 84$$

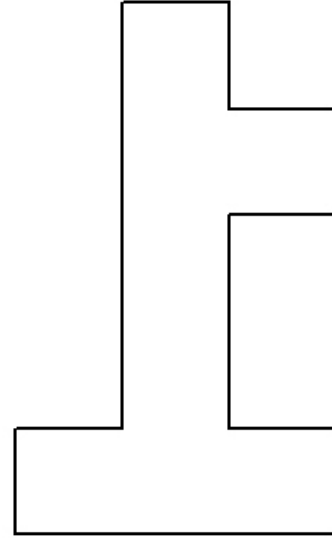

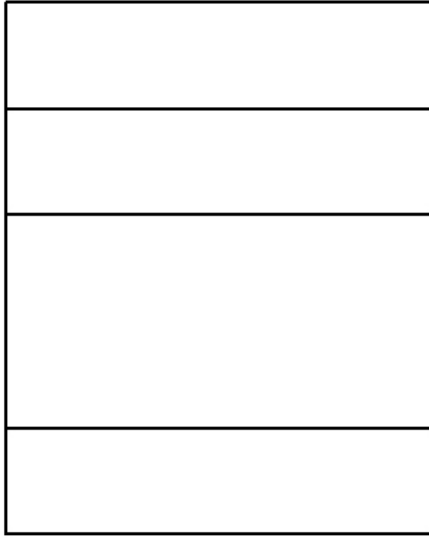

$$310 - 84 = 226 / 2 = 113$$

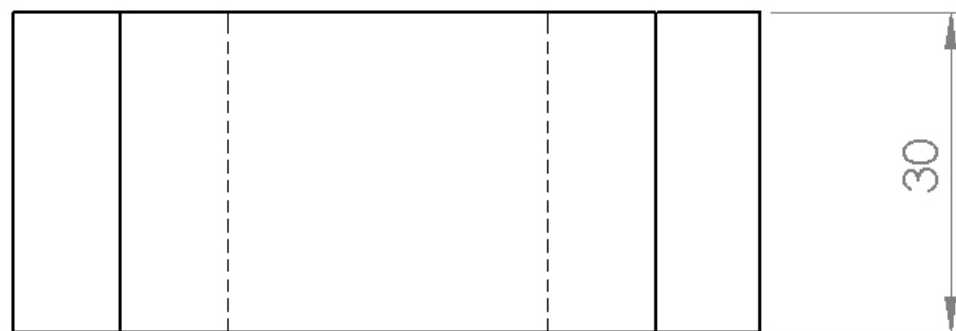

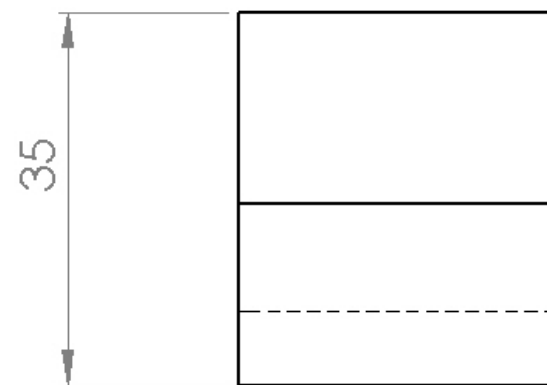

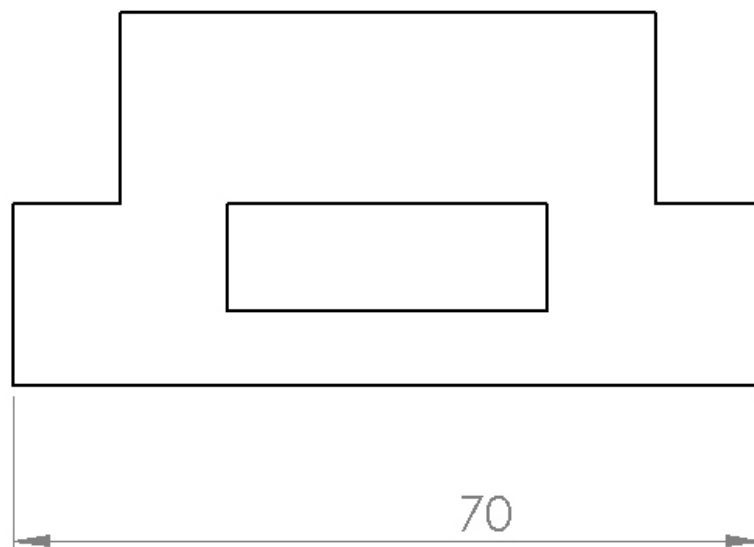

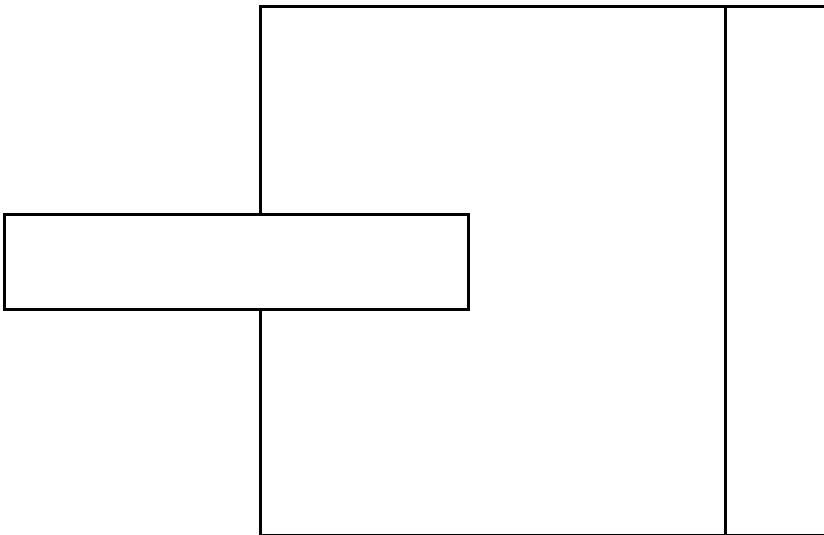

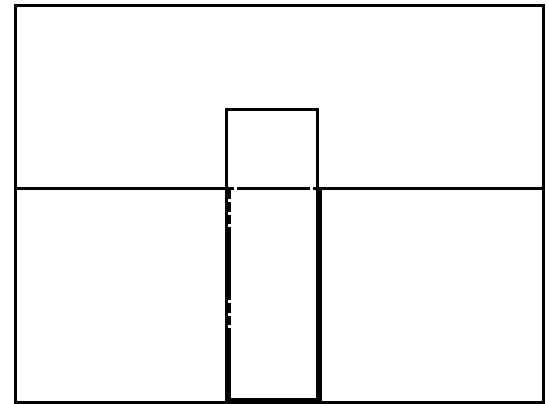

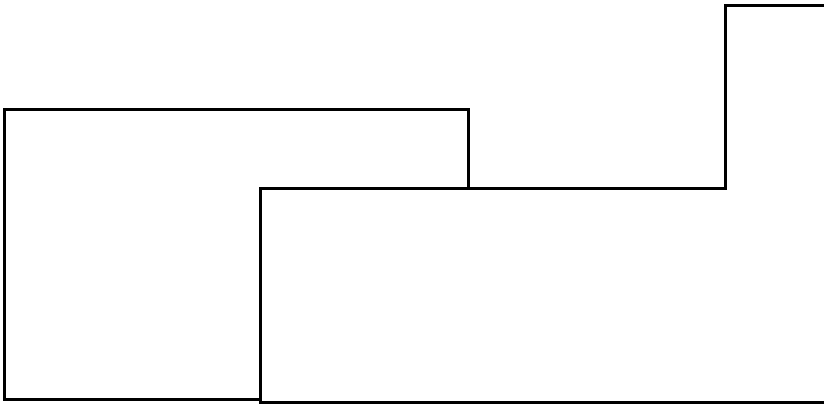

تمارين الواجب
